Experience

ZaneRay Group – Senior UI Developer / Feb 2021 – Present

- Architected and implemented UI development for high-traffic e-commerce web applications (Headless Vue.js + Nuxt.js, Shopify), guiding technical decisions to deliver fast, accessible, and visually polished experiences.
- Built and launched a cross-framework design system (Vue.js, React, Shopify) adopted across all client projects, standardizing UI patterns, improving developer onboarding, and establishing a unified design language.
- Modernized the agency's core headless architecture, migrating from Vue 2/Nuxt 2 to Vue 3/Nuxt 3, resulting in faster builds, improved performance and security, and more maintainable code.
- Defined stringent UX, accessibility, timeline, budget, and quality standards while collaborating closely with Design, Project Management, and backend engineers.
- Mentored junior and mid-level developers through code reviews and pair programming, fostering a culture of best practices and continuous improvement.

Ideabar – Senior Web Developer / Dec 2017 – Feb 2021

- Led a multidisciplinary development team through planning, estimation, execution, and delivery of custom web solutions, ensuring projects met performance, accessibility, and design quality standards.
- Developed custom WordPress and Shopify websites focused on performance, SEO, and refined UI design.

OGK Creative – Lead Developer / Mar 2017 – Dec 2017

- Led a global development team in designing and building custom WordPress sites using PHP, HTML, CSS, jQuery, and JavaScript with a focus on bespoke design and animation.

The Martin Group – Web Developer / Jul 2015 – Mar 2017

- Developed custom-tailored WordPress websites and themes using PHP, JavaScript, and jQuery, collaborating closely with designers and other developers. Contributed to UI/UX design and strategy.

Manzella Marketing Group – Interactive Designer + Developer / Jun 2014 – Jul 2015

- Managed the full development lifecycle for WordPress and Drupal websites, from initial design to production.
